

Pete has been in the shooting sports for most of his adult life. Coming from Federal Cartridge, Pete has been with Kolar for 14 years. Kolar is known for service. Every gun Pete sells is custom fit to its new owner. He does all of this on the spot at the time of the sale. While at shoots, Pete can perform Kolar's suggested inspection and maintenance program. Pete suggests that you do this every 1 to 2 years, depending on how often you shoot.
